

TRANSFORMING WUPPERTAL

AN URBAN REAL-WORLD
LABORATORY OF REAL-
WORLD LABORATORIES

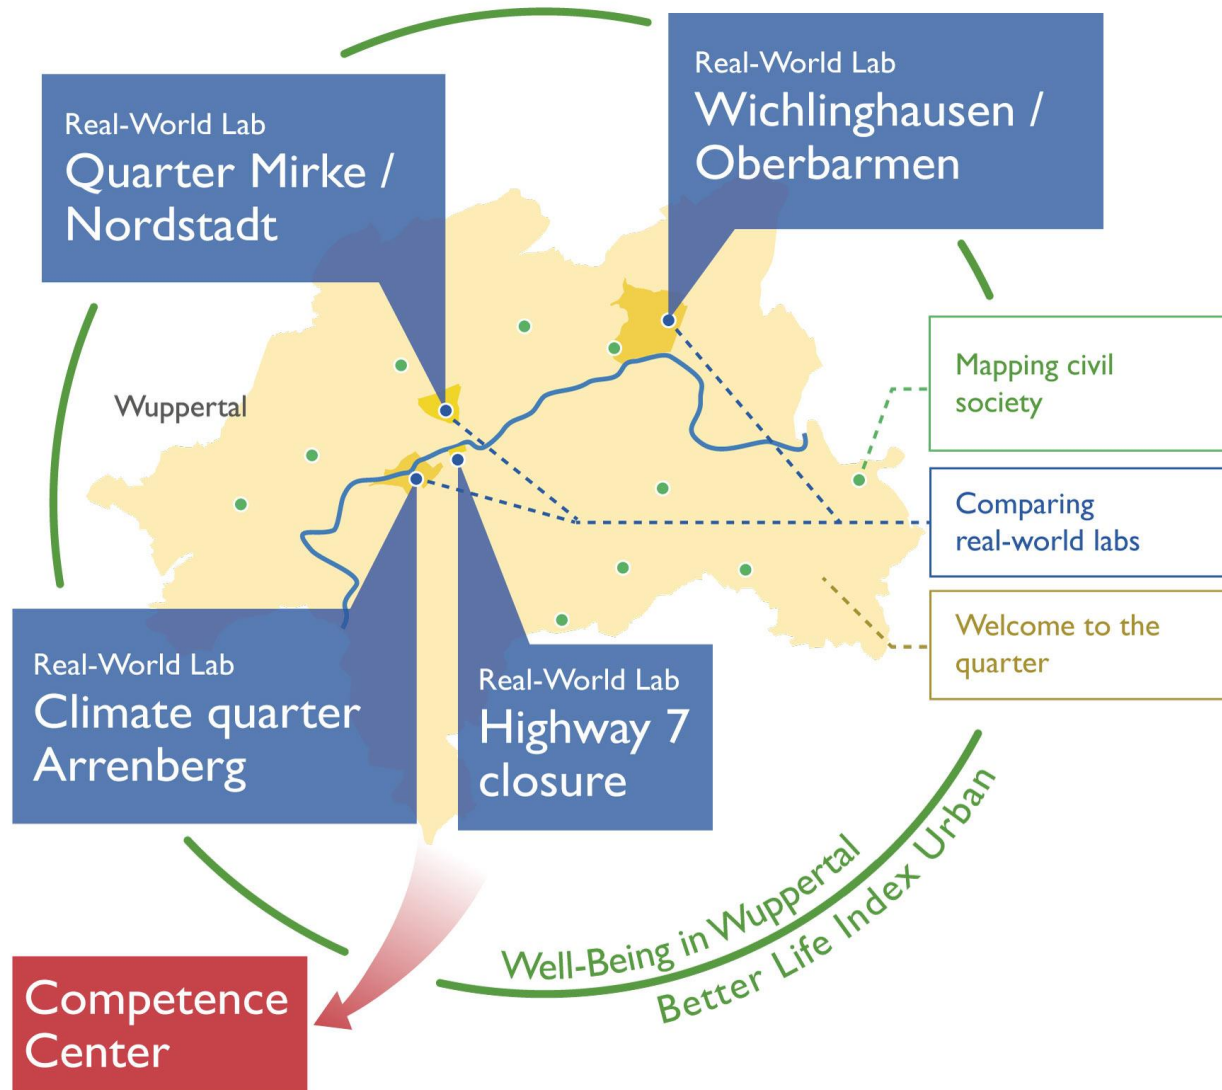

Transformations2017

Center for Transformation
Research and Sustainability
(TransZent)

NEW URBAN WELL BEING IN REAL-WORLD LABS

....BUT THEN

SO MUCH MORE HAPPENED

- A city in crisis starting to come around
- New hip urban (social and sustainable) initiatives
- New strategy processes

...AND WE DID SO MUCH MORE,

- Using our indicator system for participation
- "Transformation City"
- Happy Wuppertal

...THEY WERE MUTUALLY BENEFICIAL.

BE(COM)ING "NATIVE" TO THE TRANSFORMATION

JOINING THE MOMENTUM

(of an ongoing transformation)

- observing
- using
- supporting
- connecting

CREATING AND USING STRUCTURES

(far beyond our project)

- networks
- trust (social capital)
- new projects
- more successful projects

→ A "REAL-WORLD LAB
OF REAL-WORLD LABS"

AS A TRANSFORMATIVE SCIENTIST YOU ...

- become a stakeholder to be at eye-level with stakeholders,
- are permanently present (as persons and institutions),
- take the city as a whole,
- see yourself as part of the city,
- keep a scientific distance (once in a while)
- and find a "humble we".
